

CURRICULUM VITAE

Lianfen Qian
Department of Mathematics
The University of Arizona

Professor of Practice
PhD in Statistics
Email: Lqian01@arizona.edu

EDUCATION

Summer 2024 GenAI Overview, Project Management Institute
Spring 2024 AI in Business Innovation, College of Management and Business, Lynn University
06/28/2023 Certified Associate in Project Management (CAPM), Project Management Institute
08/1996 PhD in Statistics, Michigan State University (Advisor: Hira L. Koul)
Dissertation Title: Parameter Estimation in Nonlinear Time Series: Self-Exciting Threshold and Random Coefficient Autoregressive Models.
07/1989 MS in Statistics, Zhejiang University-Xixi Campus, Hangzhou, China
(Advisor: Zhengyan Lin and Chuanrong Lu)
Thesis: Convergence and Limiting Distribution of Nonparametric Curve Estimation.
07/1984 BS in Mathematics, Zhejiang University-Xixi Campus, Hangzhou, China.

ACADEMIC POSITIONS (Full Time)

Professor of Practice, Department of Mathematics, University of Arizona	01/2025 - Present
Professor, College of Business and Management, Lynn University	08/2024 - 01/2025
Visiting Professor, College of Business and Management, Lynn University	01/2023 - 08/2024
Professor, Charles E. Schmidt College of Science, Florida Atlantic University (FAU)	08/2009 - 08/2019
Associate Dean of Academic Affairs, Charles E. Schmidt College of Science, FAU	08/2017 - 08/2019
Associate Professor, Dept. of Mathematical Sciences, FAU	08/2002 - 08/2009
Assistant Professor, Dept. of Mathematical Sciences, FAU	08/1996 - 08/2002
Research/Teaching Assistant and Statistical Consultant, Department of Statistics and Probability, Michigan State University (MSU)	08/1993 - 08/1996
Teaching Assistant, Department of Mathematics, MSU	08/1991 - 08/1993
Professor Assistant and Lecturer, Department of Mathematics, Zhejiang University, China.	09/1984 - 02/1991

STATISTICS AND MATHEMATICS COURSES TAUGHT

Graduate Statistics and Analytics Courses Taught:

(1-3) Mathematical Statistics; Regression Analysis; Advanced Research in Mathematics
(4-6) Biostatistics 1; Survival Analysis and Clinical Trials; Longitudinal Data Analysis
(7-9) Statistical Computing; Applied Statistics Methods; Topics in Probability and Statistics
(10-11) Analysis of Financial Time Series; Statistical Methods for Environmental Sciences
(12-13) Business Analytics & Modeling; Economics and Advanced Statistics

Undergraduate Statistics and Analytics Courses Taught:

(14) MATH 466 Theory of Statistics (U of A)
(15) DATA 467 Introduction to Applied Regression and Generalized Linear Models (U of A)
(16) DATA 474 Introduction to Statistical Machine Learning (U of A, both on-ground and online)
(17) MATH 498H Honor Thesis (independent study, U of A)
(1-2) Introductory Statistics; Introduction to Biostatistics
(3-4) Probability and Statistics 1 & 2
(5-6) Applied Statistics 1 & its Lab; Applied Statistics 2 (Multivariate Statistics)
(7-8) Computational Statistics; Statistical Learning
(9-10) Probability and Statistics for Engineers; Applied Time Series and Forecasting
(11) Statistical Designs/Planning Investigations/Quality Control Theory
(12-13) Intermediate Statistics and its Lab; Business Analytics

Undergraduate Mathematics Courses Taught:

(9) [MATH 462/DATA 462 Financial Mathematics \(U of A, both on-ground and online\)](#)

(1-3) Calculus with Analytic Geometry 1; Methods of Calculus; Matrix Theory

(4-8) Actuarial Math 1 & 2; Engineering Math 2; Mathematics for Liberal Arts 1 & 2.

ADMINISTRATIVE EXPERIENCE

Statistics Advisor, Department of Mathematical Sciences, FAU 08/1996-08/2019

Actuarial Sciences Advisor, Department of Mathematical Sciences, FAU 08/1997-08/2016

Charles E. Schmidt College of Science, FAU 08/2017-08/2019

- Associate Dean of Academic Affairs: Sustain Performance Evaluation Coordinator, Program Assessment Director, Student Scholarship and Faculty Awards Committees' Chair, Faculty Assignment and Activity Report Approval, Faculty Advisor, Annual BOG Accountability Reporter, Commencement Ceremony Organizer, Ex-Officio for NTT Promotion Committee.
- Chair of MS in Data Science and Analytics Steering Committee involving four colleges of FAU: College of Business, College Engineering & Computer Science, College of Arts and Letters, Charles E. Schmidt College of Science.

ACADEMIC PROGRAM DEVELOPMENT

- [BS in Actuarial Science \(in progress, committee member, U of A\)](#)
- Master Program in Data Science and Analytics (chaired Four colleges representatives)
- Master Program in Applied Mathematics and Statistics (a committee member)
- Master Program for Environmental Sciences (a committee member)
- Minor and Certificate Programs in Statistics (major developer)
- Certificate Programs in Actuarial Sciences and Data Science (main proposer).

PROFESSIONAL DEVELOPMENT

- [The Delphi Career-Track Faculty Fellows Professional Development Series, Spring 2026](#)
- [Teaching Students How to Use AIs, The University of Arizona, Summer 2025](#)
- [Canvas and Cybersecurity Overview and their updates \(repeated three times\), Workday Training for Faculty, Classroom Management and Civility, AI-Proof Assessment, Title IX Updates, UN SDGs, Design your life. 01/2023-01/2026.](#)
- Completed Florida State Systemwide Department Chairs Workshops given by Institute for Academic Leadership, Florida State University, Oct. 1-4, 2017 and June 3-6, 2018.
- Completed the following FAU Professional Leadership courses offered by Jeffrey Buller at FAU
 - Fall 2018: Emotional Intelligence (part 2), Managing Up (parts 1-2), Succession Planning, Art of Small Talk (parts 1-2) and Time Management (parts 2-3).
 - Fall 2017: Effective Communications (part 2), Budgeting for Academic Leaders (part 1), Best Practice in Academic Fundraising (part 2), Stress Management for Academic Leaders (parts 1-2), Positive Academic Leadership-Change Your Perspective (parts 1,4), Working in a Multi-Cultural and Multi-Generational Workplace, The Introvert's Guide to Academic Leadership, Managing Up for Academic Leadership: How to Flourish When Dealing with Your Boss and Your Boss's Boss (part 1), We've Got to Stop Meeting Like This: Leading Meeting Effectively, Work-Life Balance.

AWARDS and HONORS

- 2025 [Best Research Award on Pandemic Preparedness, 10/10/2025 by Global Diseases Research, <https://globaldiseases.org/lianfen-qian-pandemic-preparedness-best-researcher-award-1729/>.](#)
- 2019 ASA Award for Outstanding Chapter Service, 2019 Council of Chapters Governing Board, American Statistics Association.
- 2016 NSF Statistics Panelist

- 2015 Excellent Faculty Sponsor Certificate for the 1st Place Winner of 2015 USRESP, The Undergraduate Statistics Project Competition.
- 11/2013 FAU CEL1001: eLearning Designer and Facilitator Certification Course.
- 2003-2004 Certificate for Undergraduate Teaching Award Nominee in Recognition of Outstanding Achievement, Charles E. Schmidt College of Science, FAU.
- 1998-2001 Statistics Expert for South Florida Water Management District.
- 1997-1998 Project NExT Fellow, The Mathematical Association of America and Exxon Education Foundation.
- 1994-1996 Membership offered from PHI KAPPA PHI National Honor Society, Michigan State University Chapter for outstanding performance in graduate study.
- 1993 Summer fellowship award, Dept. of Mathematics, Michigan State University

RESEARCH and OTHER CREATIVE ACTIVITIES

Research Interest

Data analytics and machine learning; linear and nonlinear modeling for various types of data such as time-to-event data, biomedical data, environmental data, longitudinal data, time series data and so on; structural change detection and estimation; asymptotic parametric and nonparametric inference; weak convergence of stochastic processes and their applications to statistics, classification and pattern recognition, AI tools in higher education, option trading and risk management.

Professional Presentations

Invited talks:

1. Spatial association of regional finance in China via network analysis, Chinese Economists Society 2019 North America Conference, Lawrence, KS, USA, April 6-7, 2019.
2. Asymptotics of QMLE in a log-linear RealGARCH model with Gaussian Errors, University of Kansas, April 5, 2019.
3. Estimating parameters in a frailty semi-competing model with measurement errors in a covariate, BIRS Workshop on Statistical Analysis of Large Administrative Health Databases, Feb. 17-22, 2019 and University of West Florida Seminar Talk, March 6, 2019.
4. (Plenary speaker) Estimating parameters of a frailty semi-competing model with measurement errors in covariates, Michigan State Symposium on Mathematical Statistics and Applications, Sept. 14-16, 2018.
5. Recent advances on survival analysis, JM Family Enterprises, June 25, 2018.
6. The trend of data technology, Summer Workshop sponsored by CAT-SFL and Sino-US Creation Center, West Palm Beach, June 2, 2018.
7. Network analysis of spatial correlation and regional finance in China. The legacy of Carl Friedrich Gauss lecture, Tsinghua Sanya International Mathematics Forum, Dec. 18-22, 2017.
8. Detection of structural change: a survey, JM Family Enterprises, August 14, 2017.
9. Recent advances of empirical likelihood for longitudinal data, Zhejiang Normal University, June 5, 2017.
10. Trends of data science and technology, Shangqiu University, Zhenzhou, China, May 16, 2017.
11. From 2016 election to statistical beauty, CASEC 1st Science Seminar, NOVA Southeastern University, FL, Jan. 21, 2017.
12. Empirical Likelihood Inference for Longitudinal Data, The 10th ICSA International Conference, Shanghai, China, Dec. 19-22, 2016.
13. Recent Advances of Post-Selection Inference, International Research Conference on Probability and Statistics in Hangzhou, China, Dec. 16-17, 2016.
14. Subject-wise Empirical Likelihood Inference in Partial Linear Models for Longitudinal Data. The 9th International Conference of ERCIM-CMStatistics, University of Seville, Spain, Dec. 9-11, 2016.
15. Big Data Analytics and New Development, Department of Economics and Information, Zhejiang Quzhou, July 29, 2016.
16. Generalized Empirical Likelihood Inferences in Partial Linear Model for Longitudinal Data, ICSA Conference on Data Science, Dali, Yunan, China, July 1-4, 2016.
17. Statistical Learning, Zhejiang University City College, July 11-15, 2016.
18. Introduction to R and RStudio, Changing with Technology eCOTS, Florida Atlantic University, May 14, 2016.
19. The Recent Progresses of Big Data Analysis and New Statistical Thinking, Zhejiang University City College, Dec. 3, 2015.
20. Detecting Change Points in Cure Models, University of Guelph, April 10, 2015.
21. Detecting Chang Points in Cure Models, The 3rd Biostatistics Symposium, June, 2014.
22. Empirical Likelihood Methods for Longitudinal Data Analysis, FIU (Nov.) and Xinan Jiatong University, June, 2014.
23. Multiple Change-point Detection in Piecewise Exponential Hazard Regression Model with Long-term Survivors and Right Censoring, Zhejiang University, Zhejiang University of Technology, Zhejiang Normal University and Xiamen University, May-June, 2013.
24. The research development, major and employment prospects of Statistics in USA, Zhejiang University City College, June 7, 2013.
25. Empirical Likelihood Methods for Longitudinal Data Analysis, Xiamen University, College of Yanan, June 3, 2013.

26. Functional Gene Identification for Yersinia Pestis with Unequal Number of Gene Probes, Zhejiang University of Finance and Economics, May 16, 2013.
27. The Applications of Statistics in USA, Wenzhou University, May 8, 2012.
28. Testing the Number of Components in a Semi-parametric Mixture Model via Empirical Likelihood. Some Recent Developments in Inference for Mixture and Linear Errors-in-Variables Models. 2011 JSM, July 30-August 4, Miami, 2011.
29. Generalized empirical likelihood method in partial linear models for longitudinal data, Xiamen University, Zhejiang University and Zhejiang University of Finance and Economics. June 9, 23, 24, 2011, China.
30. Efficient empirical likelihood inference in partial linear models for longitudinal data. The Sixth International Conference on Dynamic Systems and Applications, May 25-28, Atlanta, GA, 2011.
31. Fisher information matrix for three-parameter exponentiated Weibull distribution under type II censoring. The 3rd International Workshop on Matrices and Applications, July 9-13, 2009, Hangzhou/Lin An, China.
32. Change-point Estimation in a Segmented Linear Regression via Empirical Likelihood. A chair for a session for the conference on Recent Advances in Statistics in honor of Hira Koul's 65th birthday. Kellogg Center, Michigan State University, East Lansing, Michigan, May 16-17, 2008.
33. Efficient Empirical Likelihood Methods for Longitudinal Data. The 32nd SIAM Southeastern Atlantic Section Conference, Orlando, Florida, March 14-15, 2008.
34. Nadaraya-Waston estimator for stochastic processes driven by additive Levy motions, Department of Mathematics, Zhejiang University, Hangzhou China. June, 2007.
35. Estimating Tree Resin Dose Effect On Termites. International Conference on Probability and Statistics, Hangzhou, Zhejiang, China, June 18-21, 2006.
36. Longitudinal Data Analysis, Xiamen University, June 12, 2006.
37. ROC regularized method for project classification of software fault inspections. Hong Kong University of Science and Technology, Hong Kong, China, June 5, 2006.
38. Chair, Spatial Statistics, the 2005 SRCOS Summer Research Conference, June 5-8, 2005, Clemson, South Carolina.
39. Inference on M-estimators in two-phase linear regression models, Zhejiang University, Hangzhou, China, July 16, 2004.
40. The AICP Exam Workshop: Statistics Part. Florida American Planning Association-Treasure Coast Chapter. Department of Planning and Real Estate, The School District of Palm Beach County March, 2000.
41. Inferences in two-phase linear regression models. Texas A& M University. November, 1999.

Contributed talks:

42. Generalized Empirical Likelihood Methods for Analyzing Longitudinal Data. ENAR Spring Meeting, March 20-23, 2011, Miami, FL.
43. Wind Speed Analysis for Lake Okeechobee. The Fifth IMACS Seminar on Monte Carlo methods, May 16-20, 2005, USF, FL.
44. Nonparametric function estimation, Lecture 3 for Statistics Lecture Series, Jan. 29, 2004, FAU.
45. Estimation of Weibull parameters for grouped data with competing risks. IMS/ENAR Spring Regional Meeting, Charlotte, NC, March 2001.
46. Consistency and limiting distributions of M-estimators in two-phase linear regression models. The AMS Mathematical Challenges of the 21st Century, Los Angeles, California, August 2000.
47. Local estimation of a biometric function with covariate effects. Presented and chaired for Applications of Genetics to Disease on the XXth International Biometric Conference, Berkeley, California, July 2000.
48. Application of the occupancy problem to the wireless local area network establishments. The 31th Southeastern International Conference on Combinatorics, Graph Theory and Computing, FAU. March 2000.
49. Some applications of statistics. Departmental Seminar at FAU, Feb. 2000.
50. Asymptotics of maximum likelihood estimator in a two-phase linear regression model. 1999 Joint Statistical Meetings, Baltimore, Maryland, August 1999.
51. Analysis of trends in Loggerhead turtle nesting densities along a southeast Florida beach. Fourth North American New Researchers Conference, Baltimore, Maryland, August 1997.
52. Local estimation in the proportional mean residual life regression models. The seventh international workshop on matrices and statistics, Fort Lauderdale, Florida, December 1998.

53. Introduction to time series. Departmental Seminar at Florida Atlantic University, March 1998.
54. Panelist: Panel discussion for Project NExT on the 31st annual meeting of the Florida section of the MAA, Boca Raton, Florida, March 1998.
55. Profile maximum likelihood estimator in a two-phase random design regression model. Project NExT/Young Mathematician's Network poster session at the Joint Mathematics Meetings, Baltimore, Maryland, January 1998.
56. On Maximum likelihood estimators for a threshold autoregression. Joint Statistics Meetings, Anaheim, California, August 1997.
57. Life history in Statistics. Workshop for the Pathways to the Future at the Joint Statistical Meetings, Anaheim, California, August 1997.
58. Maximum likelihood estimators for threshold models. AWM Mini-symposium on Optimization, AWM Workshop at the SIAM annual meeting, San Jose, California, July 1997.
59. Minimum distance estimators for random coefficient autoregressive models. Departmental seminar at Florida Atlantic University, February 1997 and the Statistical Challenges in Modern Astronomy II, College Station, PA, June 1996.

Ph.D./M.S./UG Students Supervised

- 2025-2026 [Kyle Jai-Ren Myint](#), TBA, [Honor thesis student](#).
- 2017-2019 Binod Rimal and Ziyu Hu, TBA, PhD candidates.
- 2017-2019 Md Tareq Ferdous Khan, MS thesis title “Determinants of Women’s Attitude towards Intimate Partner Violence: An Evidence from Bangladesh”, expected in August 2019.
- 2016-2018 Durga Kutal, Various estimation approaches in a non-mixture cure model with right censoring with cure fraction and change point, PhD, August, 2018.
- 2015-2018 Zhengda Gao, Bayesian reliability estimation for degradation data using symmetric Laplace process. MS, international program with Wenzhou University.
- 2015-2018 Ye Yuan, Network analysis of spatial correlation and regional finance in China. MS, international program with Wenzhou University.
- 2015-2017 Corey Ball and Daniel Kind, MS.
- 2015 Adam Chen, UG student. Adam Chen received the 1st place award for USPROC (Undergraduate Statistics Project Competition)
- 2013-2015 Yonas Abraha, MS, May 2015
- 2011-2013 Xiaoliu Nie, MS, May, 2013.
- 2011-2015 Wei Zhang, *Gene classification and Hazard rate with change-point*. PhD, May.
- 2011-2012 Eric Golinko, A Min/Max Algorithm for Cubic Splines over K-partitions. MS, May.
- 2010-2011 Carrie Stevens, *Revisiting Leisure Activities and the Risk of Dementia in the Elderly with Special Focus on Dancing*, MS thesis, December.
- 2006-2011 Zhihua Liu. *Testing Structure Change via Empirical Likelihood*. PhD, December.
- 2004-2012 Fazhe Chang. *Estimating ROC Curves for various models*. PhD, May.
- 2003-2004 Soyoung Ryu. *Longitudinal Analysis and Its Applications*. MS thesis.
- 2000-2002 Mingyan Hu. *Analyzing Wind Speed Data from Lake Okeechobee*. MS, May.
- 1996-1998 Katherine Lynn Humphreys. *Variances in Meta-Analysis*. MS thesis. May.

Thesis/Dissertation Committees

- 2018-2019 Corey Ball, MS and PhD, August, 2019
- 2017-2019 Duval Zephirin and Sher Chhetri, MS and PhD, August, 2019
- 2016-2019 Sher Chhetri, TBA, PhD, August 2019
- 2016-2018 Zachariah Tyree, PhD, December 2018
- 2012-2014 Andrew Dweck, MS, May 2014.
- 2011-2012 Xin Ye, Leakage Evaluation for Cryptosystems, PhD student.
- 2010-2015 Michelle Peterson, Department of Biology, PhD student .
- 2009-2012 Muhilan Mahalingam, Complex System and Brain Sciences, Dynamical Signal Trial Analysis of Visuomotor Processing, PhD, Dec.
- 2008-2012 Wei Tang, Complex System and Brain Sciences, PhD, May.

2007-2008 Benjamin F. Davis, Department of Mathematical Sciences. MS, May.
 2006-2009 Winston Buckley, Department of Mathematical Sciences, PhD, May.
 Sandun Perera, Department of Mathematical Sciences, PhD, May.
 2006-2009 Rebecca Ann Stanek, Department of Biology, MS, Dec.
 2006-2011 Huang Lin, Department of Electric Engineering, PhD, May.
 2004-2007 Julian DiGialleonardo, Department of Biology, MS, Dec.
 2003-2007 Jianmin Chen, Department of Computer Science and Engineering, PhD student.
 Vivianne Vejdani, Department of Biology and Environmental Science, MS.
 2003-2004 Flora Liu, Department of Mathematical Sciences, M., May.
 2002-2003 Yanzhou Xu, Department of Mathematical Sciences, MS, May.
 2000-2002 Sara Stevenson, Environmental Sciences. MS, May.
 1999-2001 Wan Yu Chao, Department of Education. PhD, May.

The Most Recent Professional Service

- Successfully helped U of A to receive the UCAP-IC designation.
- Volunteering Judge for 2025 USPROC, reviewed 4 manuscripts for the competition.
- Lead mentor of all judges for 2025 ASA DataFest at ASU +UofA, AZ.
- Member of the task force for AI and Lower Division Courses.
- Faculty mentor for a UTA for DATA 467.
- Faculty advisor for four students (Jacobus Austin, Jinwoo Choi, Caden Boos and Alex Shah)
- A volunteering Judge for 2024 USPROC, reviewed 4 manuscripts for the competition.
- Chaired 2022 and 2024 Scholarship Committee for the Fujianese Association of Florida. Evaluated more than 100 applicants' applications and awarded scholarship fund with certificates to all selected winners.
- A member of graduate committee at the college of business and management, Lynn University.
